

Environment Policy

Gold Coast Airport (GCA) is the 6th busiest airport in Australia handling approximately 5 million passengers annually as well as freight and general aviation activities. GCA covers approximately 385ha including commercial, light industrial and educational facilities and areas of environmental value.

Gold Coast Airport Pty Ltd is certified and committed to the ISO14001:2004 Environmental Management Standard. In order to achieve continual improvement and in accordance with GCA's Vision, we will:

1. Strive to minimise impacts on the environment including pollution of water, air and soil and protect biodiversity.
2. Seek to reduce the generation of waste and consumption of natural resources including energy and water.
3. Ensure we comply with applicable environmental legal requirements and other voluntary requirements to which GCAPL subscribes.
4. Set and review environmental objectives and targets established in the Airport Environment Strategy and Environmental Management System.
5. Measure, monitor and report on our environmental performance.
6. Implement and communicate this Policy throughout our operations.
7. Conduct appropriate training for those whose activities may have an adverse impact on the environment.
8. Make this policy publically available.
9. Review this Policy regularly.
