

Gold Coast Airport

Environmental Policy

Gold Coast Airport is committed to managing environmental matters as an integral part of our business. In particular, it is our policy to assure the environmental integrity of our operations and facilities (both aviation and non-aviation) at all times and at all places. We will do so by adhering to the following principles:

- Complying with applicable Acts, laws, regulations and standards, and implementing programmes and procedures to ensure compliance and fulfilment of stated commitments
- Complying with the stated aims and conditions of all voluntary agreements and other requirements that Gold Coast Airport enters into or is bound by
- Complying with environmental goals will be a key element in the training and performance reviews of all relevant stakeholders
- Seeking opportunities beyond compliance requirements, for reducing risks to the environment, and establishing and meeting our environmental quality standards, and providing a framework for fulfilling the Gold Coast Airport Environmental Vision Statement
- Employing management systems and procedures specifically designed to manage activities and conditions that are of potential threat to the environment
- Minimising risk to the environment by employing clean technology
- Minimising risk to the environment by being prepared for emergencies
- Strive to reduce pollution by minimising emissions to the air, land, and water
- Minimising the amount of waste that is generated and requires disposal
- Managing natural resources such as water, energy, and land in an environmentally sustainable manner
- Communicating our commitment to environmental management to stakeholders (including the public), and seeking support in meeting our environmental goals
- Setting and reviewing objectives and targets which provide for continual improvement in environmental management.
- Measure, monitor and report on our environmental performance
- Annually review the appropriateness and implementation of this Policy (based on date endorsed below).
