GOLD COAST AIRPORT WELCOMES EXTRA JETSTAR SERVICES

Travellers through Gold Coast Airport will soon have access to even more direct flights to and from Newcastle and Sydney.

Gold Coast Airport today (25/7) welcomed news that from June 2008, Jetstar would more than double capacity on its Newcastle-Gold Coast route by introducing a daily service, up from three flights per week.

The airline also announced plans to boost its Gold Coast-Sydney route by an extra four services per week, consolidating to 9-10 times daily.

Gold Coast Airport Chief Operating Officer Paul Donovan hailed the move as a win for the Gold Coast and Northern New South Wales regions.

“These extra flights equate to an additional 1400 seats in total on both routes to help service the growing demand for the destination,” Mr Donovan said.

“The extra services are in addition to Jetstar’s recent announcement to operate an additional three daily services from this December, spread across Melbourne-Gold Coast and Sydney-Gold Coast routes.”

“This means, in total, Jetstar have thrown an extra 27% capacity into the Gold Coast over the past month.

“We welcome Jetstar’s support and look forward to working with the airline and the tourism industry to ensure the additional flights are a success.”

Gold Coast Airport is proudly owned and operated by Gold Coast Airport Pty Limited, a wholly owned subsidiary of Queensland Airports Limited.
